PROFILE SUMMARY

Operations professional with hands-on experience planning, coordinating, and delivering a complex, multi-stakeholder initiative end-to-end. Independently planned and executed a 15+ module internal platform — managing scope, timeline, cross-functional stakeholders (finance, operations, management), and rollout risk across 3 branches (Mumbai, Hyderabad, Bangalore) for a business serving 20,000+ students. Comfortable coordinating ambiguous, multi-team projects, tracking milestones, and communicating status clearly to stakeholders at every level. Proficient in Google Workspace (Docs, Sheets, Gmail). Seeking the Google Project Management Apprenticeship to build structured project management skills through hands-on, mentored experience.

CORE SKILLS

Project & Program: Project planning & scoping · Timeline & milestone tracking · Risk & issue management · Stakeholder coordination · Cross-functional communication · Process documentation · Status reporting

Execution: End-to-end delivery ownership · Workflow design & automation · Multi-location rollout coordination · AI-assisted rapid execution · Problem-solving under ambiguity

Business & Tools: Financial analysis & reporting · Budgeting · GST/TDS compliance tracking · Google Workspace (Docs, Sheets, Gmail) · Advanced Excel · Dashboarding/MIS reporting

EXPERIENCE

Sprouts Edu Tours

Sept 2024 – Present

Senior Accounting Executive & Project Owner

- Planned and coordinated a company-wide system rollout across 3 branches and multiple departments (finance, operations, management), managing scope, timeline, and stakeholder alignment from problem definition to full adoption.
- Owned end-to-end receivables of Rs 3 crore+ across 200+ tours, delivering 100% invoicing accuracy and cutting outstanding payments 30% in 6 months through improved process coordination.
- Tracked and resolved risks and blockers during a multi-stakeholder rollout, coordinating between finance, ops and technical build to keep delivery on schedule; documented processes and reported progress clearly to leadership — cutting manual work 40% and reporting time 50%.

FLAGSHIP PROJECT — END-TO-END PLANNING & DELIVERY, SOLO EXECUTION

Sprouts ERP — Finance & Operations Platform Rollout

Coordinated with AI dev tools · Delivered on schedule · Adopted company-wide across 3 branches

- Problem/Scope: Finance and ops ran on disconnected spreadsheets across 200+ tours (10+ hours/week lost to reconciliation, no single source of truth); defined project scope and priorities through stakeholder research with finance, ops and management.
- Planning & Coordination: Broke the initiative into 15+ sequenced modules — receivables & aging, invoicing, expense & vendor procurement, GST/TDS compliance, role-based access, budgeting & spend analytics, tour operations, and P&L reporting — planning build order and managing dependencies across modules.
- Delivery: Directed independent execution using AI dev tools, tracked milestones, tested each module, and managed rollout communication across 3 branches to drive adoption without disrupting daily operations — cutting manual work 40%, speeding reporting 50%, and becoming the operational backbone of the business.

EDUCATION

R.A. Podar College of Commerce & Economics, Mumbai University

CGPA 8.49 (A+)

Bachelor of Commerce

CERTIFICATIONS

Google AI Essentials (Google/Coursera) · Financial Markets with Honors (Yale/Coursera) · Financial Modelling & Fundamental Analysis (Udemy) · Fundamentals of Digital Marketing (Google/Coursera)

NOTABLE WINS

- Planned and delivered a production-grade platform adopted company-wide — recognised by management as a transformational operations initiative (2024–25).
- 1st place, International Olympiad of Mathematics (2017); Head of Creatives, “Rapport” Intra-College Fest, R.A. Podar (2018 & 2023) — quantitative foundation and cross-functional coordination/leadership beyond academics.
